Contactless Ordering Platform

Order   Pay   Go

Give customers and staff the space they deserve. Limit in-person contact, increase safety, and improve order accuracy with self-deserve ordering.

Expert in the hospitality industry created to assist businesses to fight labor shortage while keeping up with the new social needs of a safe and contactless service with a complete virtual server through a QR code.
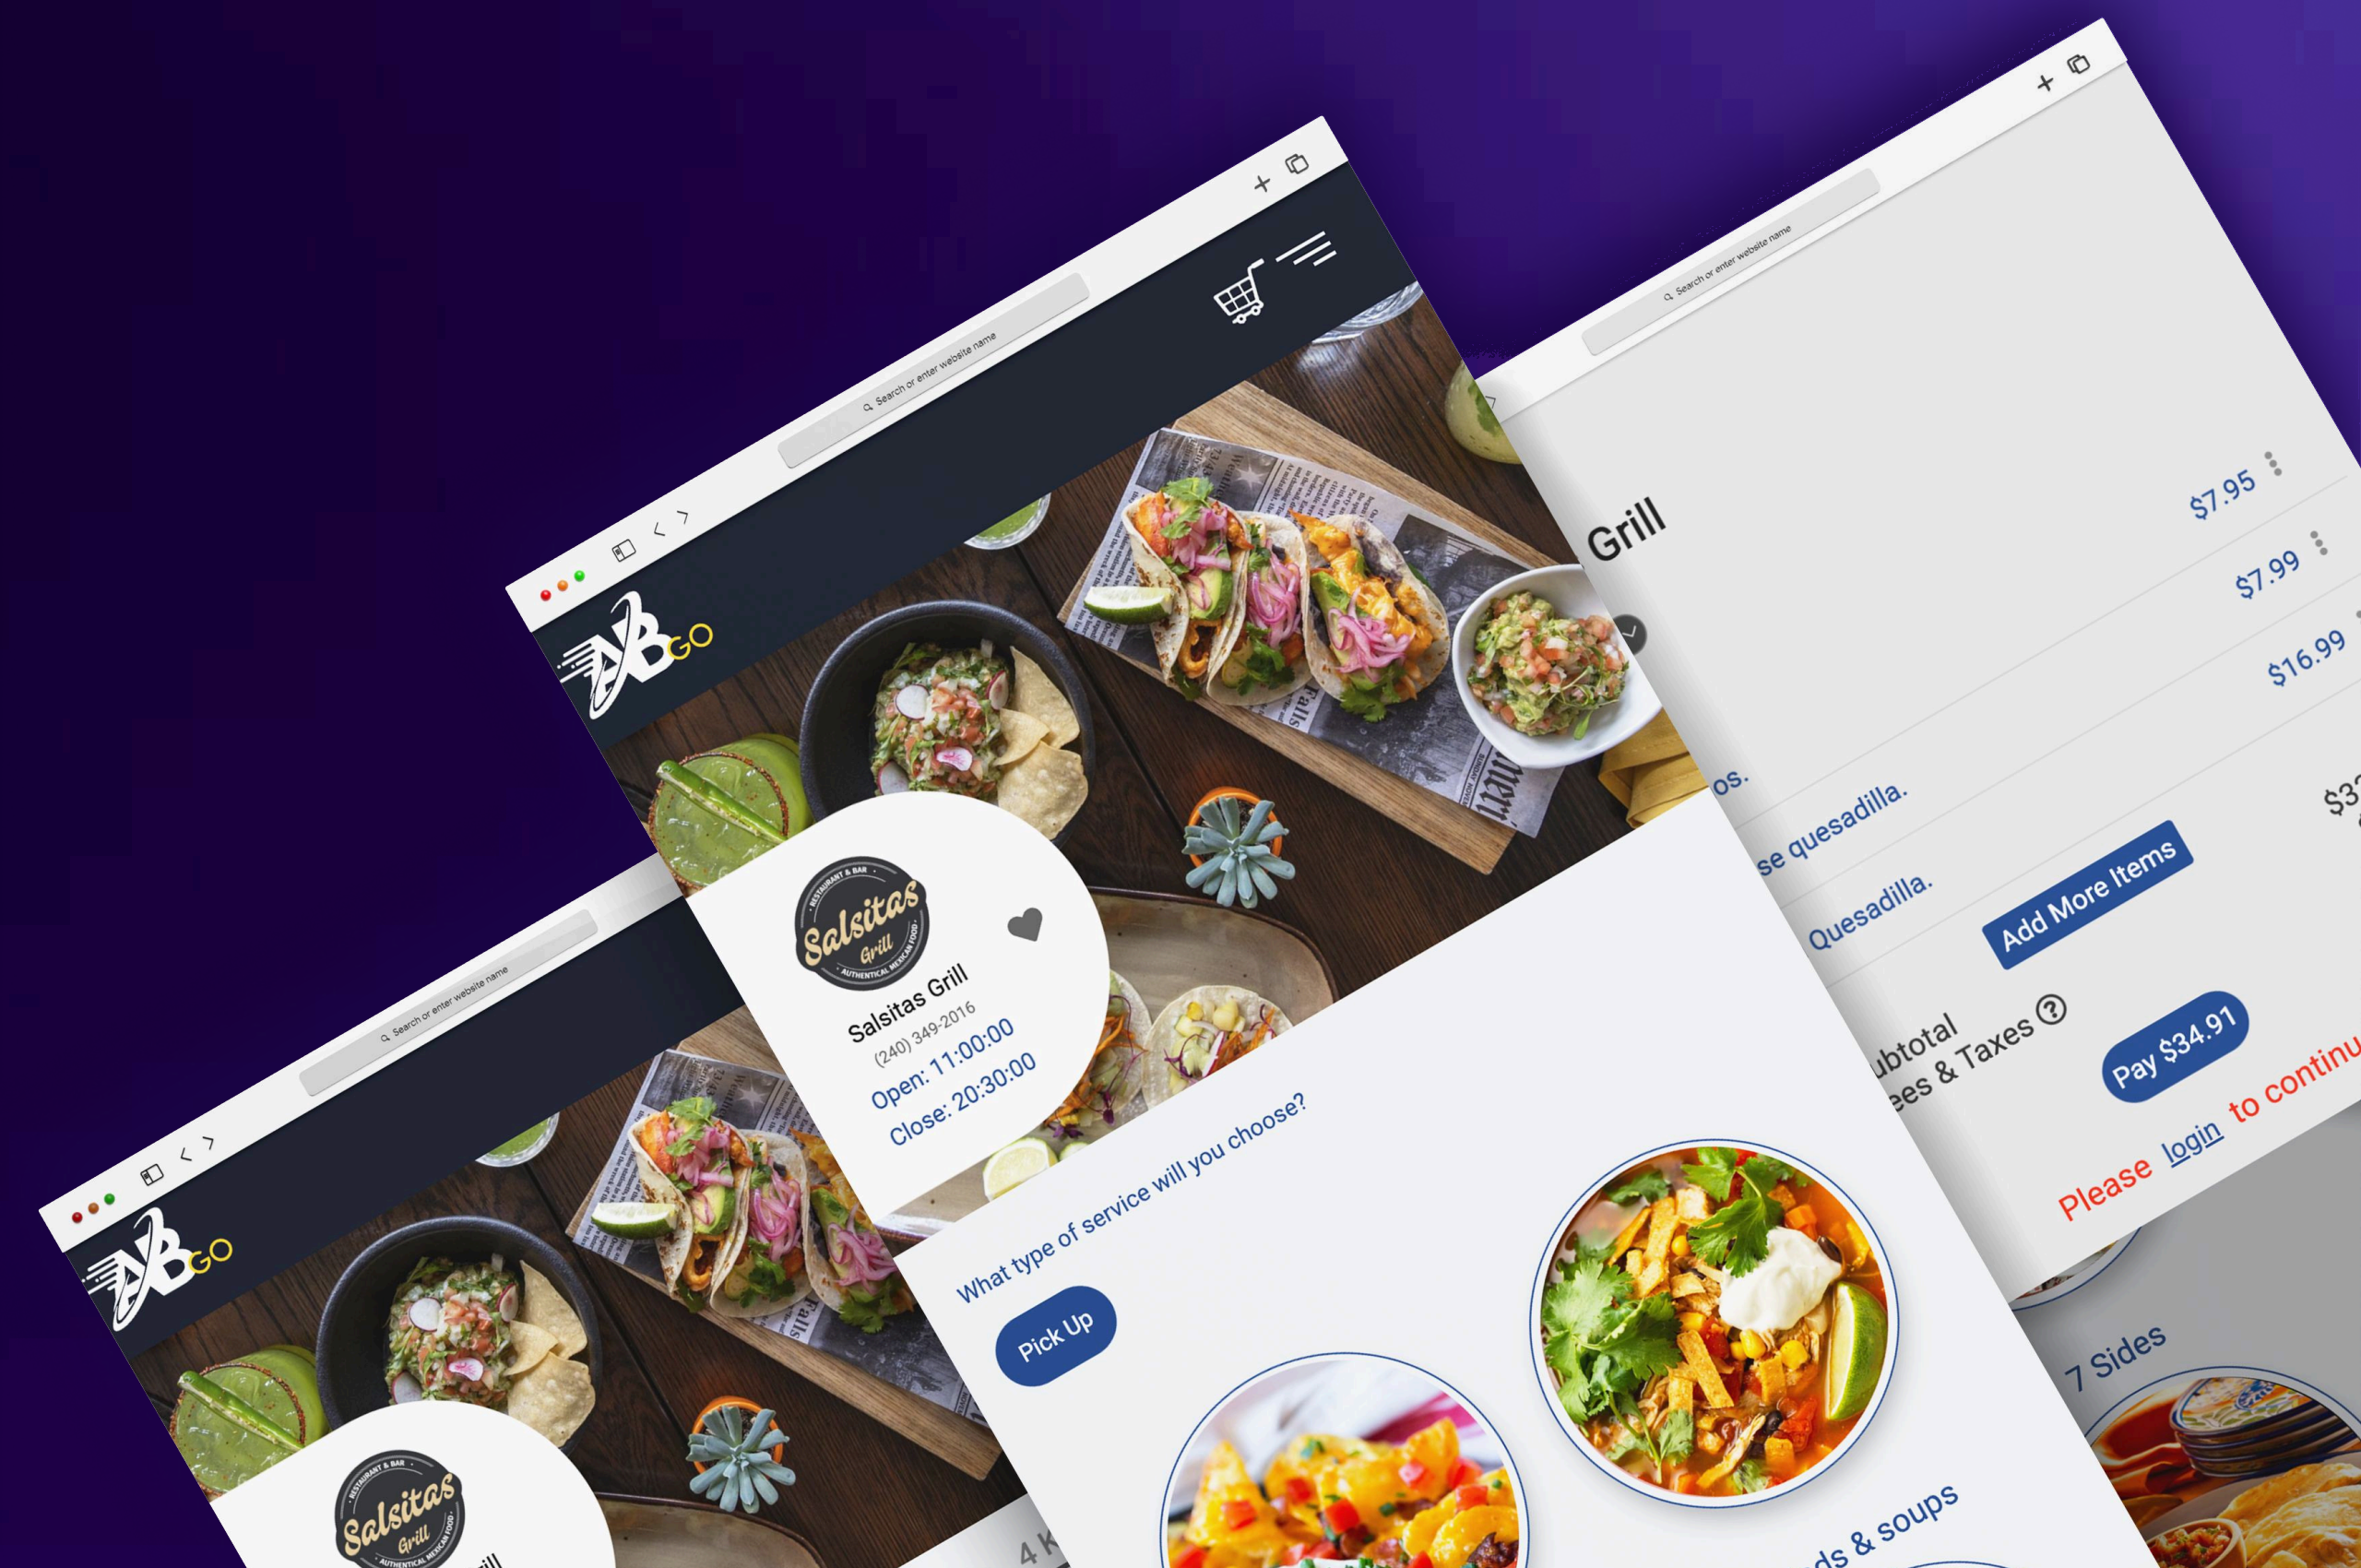

Furthermore, new, or existing businesses looking to become virtual restaurants can benefit from a comprehensive tool that provides solutions such as delivery, pick-up, curbside pick-up, contactless takeout, or traditional takeout.

AB GO provides customized solutions while allowing businesses to keep control and avoiding third parties to ensure going beyond meeting your customer's basic needs.

Qr Code For A
Complete Virtual Server

AB GO contactless order and pays QR code provides effortless table and guest management while connecting and improving kitchen production and payment processing.

With our digitally friendly QR code, you can ensure customer's safety while fighting back labor shortages. An absolute out of the ordinary dining experince.

Scan a designated QR code per tables.

Place orders as a guest or by singing into AB GO
Account to enjoy an easier checkout by reordering favorite dishes and using stored payment methods.

With a complete virtual server, customers
Can browse menus, place an order, request utensils and water entirely on their own.

You cook
Guest to enjoy your meals.

Receipt options include print, text or email.
